

Dear BRC users

RIKEN BRC Experimental Plant Division is emailing you to get your attention on our resource distribution. Your emailing to plant@brc.riken.jp about any item in the announcement is always welcome.

1. Vectors, deposited by Dr Nakagawa, added to Exp-Plant Catalog

We revised the website of binary vectors as they were unreachable for our users. They are transferred to Exp-Plant Catalog.

https://plant.rtc.riken.jp/resource/pdi/pdi_list2.html

Some fluorescent protein resources in the catalog are bound by transfer license. Complication of making documents are still remained with that, so please ask us if you may have any question.

2. Schedule on Arabidopsis Research (ICAR) Meetings

The Multinational Arabidopsis Steering Committee (MASC) Annual Meeting was held remotely on Jul. 21. The information of future International Conference on Arabidopsis Research (ICAR) are decided as following.
