

Dear BRC users

RIKEN BRC Experimental Plant Division is emailing you to draw your attention to our resource distribution. Your inquiry about any item in the announcement is always welcome.

New Release: Plant Cell Lines

The Plant Cell Section has added new cell lines to the catalog database, the Exp-Plant Catalog – Plant Cell Lines.

Experimental Plant Division Homepage: News “New Release: Plant Cell Lines (2024-03-13)”

<https://epd.brc.riken.jp/en/archives/5762>

- Grape YU-1-c callus cell line (rpc00110)
- Arabidopsis YG1-c callus cell line (rpc00111)
- Arabidopsis At tom-c callus cell line (rpc00112)

Please contact plant.brc@riken.jp for your inquiries.

New mutant and transgenic lines added to the Exp-Plant Catalog

Information on eighty-five individual seed lines has been added to the list of individual seed lines in the Exp-Plant Catalog (a total of 524 lines) (https://plant.rtc.riken.jp/resource/psi/psi_list2.html).

You can search for a line using the line information or the reference information (title etc.) associated with the line.

The words “In preparation” in the list indicate that seeds will be available in the future. Thank you for your patience.

The 34th International Conference on Arabidopsis Research (San Diego, USA)

- Early-bird Registration: April 15th
- Regular Registration: July 8th

Further information is available at ICAR website <https://icar2024.weebly.com/>.

Best Regards
