

Dear BRC users

RIKEN BRC Experimental Plant Division is emailing you to draw your attention to our resource distribution. Your inquiry about any item in the announcement is welcome.

Seasonal holiday closure

Please note that the RIKEN BioResource Center will be closed from 28 December 2024 to 5 January 2025 for the annual holiday closure period. We will resume distribution of seeds, plant DNAs on or after 8 January, and plant cell lines on or after 20 January.
Happy Holidays!

Overseas seed shipments for the year

In order to avoid seasonally busy transport and the associated problems, the Experimental Plant Division would like to refrain from shipping our seeds in December. Private carriers have not accepted the transfer of seeds, so the postal service is the only way to send our seeds although it takes time. We thank you for your understanding.

Best Regards
